Introduction

The Liquor Distribution Branch produces the Quarterly Market Review (QMR) four times per year for reporting periods ending in March, June, September, and December.

The QMR provides provincial sales for domestic and import beer, cider, coolers, spirits and wine. Sales are provided in both litre and retail dollar value. Retail dollar value is based on the government liquor store price excluding provincial sales tax (PST) and federal goods and services tax (GST).

For each reporting period, the QMR provides annualized sales data for five years and sales for the most recent quarter. The percentage change in sales is shown for the most recent 12 month period and the most recent quarter compared to the same time periods in the previous year. In addition, the QMR shows the percentage of sales that were made to licensed establishments where liquor is consumed on-premise (e.g. bars, restaurants etc.).

The Quarterly Market Review was revised for the March 2008 edition and this impacts the comparability with previous editions. The source of data used to produce the QMR from March 2008 forward was changed resulting in small differences in historical sales comparability. More significantly, the definition of dollar sales value was changed to exclude sales taxes (PST, GST) which, as of March 2008, were 10% and 5% respectively. The change to retail dollar sales reporting was made to make QMR sales data more consistent with sales reported in other LDB publications such as the Annual Report.

While every effort has been made to ensure accuracy and completeness of our figures, this is not guaranteed. It is the express condition of the use of this publication that the Liquor Distribution Branch shall incur no liability.
